Before uploading your images, make sure your images are the correct size (2100 dpi on the longest side) and in jpeg format. The uploader will not accept images sized incorrectly.

1. Go to the WACCO website www.wicameraclubs.org.

2. Click on the Competition button on the left hand side of the home page.

3. Click on the black Competition Uploader button on the right hand side of the competition home page.

4. Enter your name and club. NOTE: You will only need to do this the first time you enter a competition.
When entering future competitions, you will be able to select your name and club from a drop-down list and upload your images immediately.

Please note: Only one person may be uploading images at a time. If you are unable to register or upload your images, that is an indication that someone else is in the process. Please try again later. Again, don't wait until the last minute to upload.
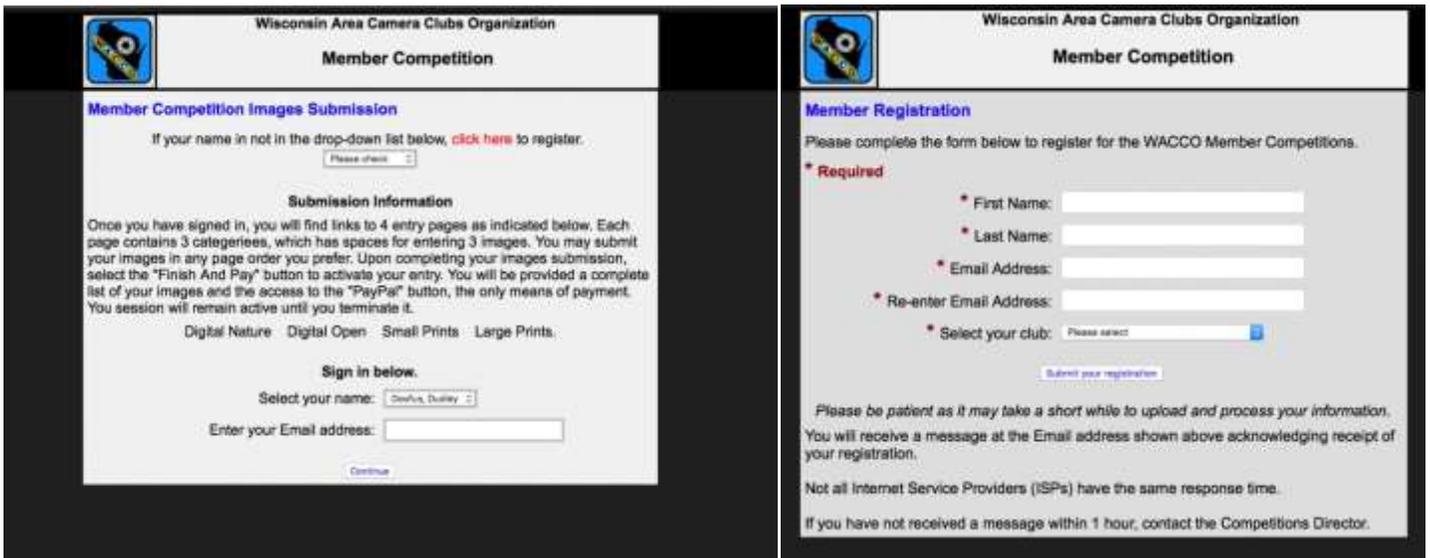

5. Click on Submit your Registration or the Continue button.

6. Select the Division you wish to enter.

7. The submission page for each group of images has a similar appearance. If you don't wish to enter a particular division, just skip that section.
