Return this form with the fees to the school office by the  
first day of school.**

**Beacon hot lunches will begin the week of September 11.**

# Litter-less Lunches

Hudson Hills Montessori is dedicated to developing a sense of environmental stewardship in all of our students. Our Litter-less Lunch program is one way we are meeting this goal.

Litter-less lunches are just that – lunches that produce little or no garbage. We ask that each child bring their lunch items in small reusable containers rather than one-use throw away containers. Using a thermos or water bottle instead of a juice box and packing silverware in place of one use plastic-ware are all little changes that can really add up and have a positive impact on our environment. Each child should also bring two cloth napkins in their lunchbox every day. One of the napkins will be their placemat and the second will be their napkin.

Your participation in this stewardship project is appreciated. Let's work together to help our students become responsible citizens of our community and the world.
