WHY HABITAT

Our Vision

Approximately one-in-three households in the Triangle area are cost-burdened, spending more than 30% of their income on their housing.

Research shows that lack of affordable housing

- Creates instability
- Weakens the economy
- Negatively impacts the health and education of children

A world in which everyone has a decent place to live

Why it matters

Together we build more than houses

YOU help our future homeowners build:

- Strength, stability and self-reliance
- Bridges to people of diverse backgrounds
- More connected communities

We build brighter futures
