The incumbent routinely works with day volunteers to complete construction related tasks at build sites.

The Construction Site Supervisor position will involve;

- Orienting volunteers to each build site
- Keeping track of and organizing tools
- Assisting with site set up and clean up
- General site supervision

Requirements:

- Skills in residential construction
- Effective communication skills
- Ability to instruct volunteers in construction related tasks
- Knowledge in the area of framing carpentry a plus
- Any prior experience in site development, woodworking and training a plus
- A willingness to teach unskilled volunteers a must
- Must be able to lift construction materials and climb ladders
- Ability to travel to and from meetings and appointments in locations and times when public transportation is unavailable
- Some weekend and evening hours required
- Ability to work with people of all races, faiths and backgrounds
- An absolute commitment to job safety
- Ability to work with minimum supervision
- Computer literacy a must

Other:

- Must have a valid Florida Driver's License and be able to lift 25 or more pounds with no other physical limitations
- Participates in work crews of volunteers, homeowners in construction/rehab projects
- Responsible for the safety and quality of construction
- Responsible for tools, equipment and vehicles assigned to jobs
- Construct Habitat houses in accordance with prescribed Habitat guidelines and comply with OSHA requirements
- Maintain a working knowledge of best practices and significant developments and trends in the field of residential construction
