300 Fortune 500 cos., biz associations & firms

Largest single national affiliate of 3 global business organizations
BUSINESS ENGAGEMENT ARCHITECTURE
RECOMMENDATIONS
ICC as coordinator of the Global Business Alliance for 2030 (#1): Mandate and Working Methods of the High-Level Political Forum

While retaining the intergovernmental character of the forum, representatives of MGoS major groups should be allowed to:

• Attend all official meetings of the forum;
• Have access to all official information and documents;
• Intervene in official meetings;
• Submit documents and present written and oral contributions;
• Make recommendations;
• Organize side events/round tables, in cooperation with Member States and the Secretariat.
BUSINESS ENGAGEMENT ARCHITECTURE RECOMMENDATIONS

ICC as coordinator of the Global Business Alliance for 2030

To enable business to take full advantage of engagement opportunities established by Resolution A/67/290, the GBA proposes establishment of a High Level Political Forum Business Coordinating Group (HLPF/BCG) w/following operating principles:

- Distinct business representation
- Autonomous governance
- Comprehensive and representative engagement
- Full range of expertise

Supported by GBA, the HLPF/BCG would provide a business interface to relevant stakeholder focal points at the UN including: OPGA; DESA (DSD, FfD, ECOSOC Support); UNGC etc. For HLPF annual meetings, the HLPF/BCG would:

- Ensure broad and inclusive business participation in the High Level Political Forum
- Provide annual reports on the contributions of business to the achievement of the SDGs
- Develop and promote communication & outreach to expand business awareness & increased understanding of the HLPF

GBA 2030/ICC Comments on the “Elements”

- Themes
  - All 17 SDGs
  - Space for new and emerging issues

- Countries in Special Situations
  - Adequate time to discuss s/d challenges for countries in special situations

- Participation
  - Reaffirmation of stakeholder role as articulated in GA Res 67/290
  - Specific provision for civil society & private sector to report on commitments to implement SDGs

- Role of Secretariat
  - Reform organization of DESA to support implementation
Takeaways

• UN 2030 Agenda for S/D and SDGs are powerful because they invited + reflected MG&S views - this must continue as the modus operandi – “Non regression”

• MG&S are called upon to act – individually and in partnership (don’t “need” the UN to catalyze this, but cooperation/coordination & synergy will broaden and deepen the response)

• Need to advance institutional innovation and evolution to reflect and operationalize full implementation of 2030Agenda

• Role of MGoS should be mainstreamed throughout the 2030 Agenda for Sustainable Development system

• Existing reporting tools could be used as models to shape the evidence based contributions to the HLPF
