YMCA STUDENT CARE PROGRAMS

YOUR PARTNER IN EDUCATION

HANDS-ON,
EVIDENCE-BASED
CURRICULUM

Learning doesn't stop
when the bell rings

Student Care is an out of school enrichment program offering affordable, educational, family and school partnerships with highly trained staff and evidence-based curriculum.

**Certified,
state accredited
staff.**

Affordable Out Of School Programs for All

Children enrolled in Eastmont, Wenatchee and Cascade School Districts ages 5-12 all have Before School, After School and Vacation Day options for childcare at our school age sites in the districts.

Busing from the school to the program is provided along with daily snacks, STEM activities and field trips.

This state licensed program offers families who qualify with funding because we truly believe in enrichment for all.

“My children are exposed to activities and concepts that they wouldn’t if they came home after-school.

They interact as a community and learn new things. I appreciate the way discipline is handled. My children are learning a lot of extra skills and social-emotional skills that they wouldn’t get otherwise.”

— A Y after-school parent

From First Steps to Walking at Graduation

When kids join the Y's Student Care programs, they're in for a lifetime of support and community in health, wellness and educational encouragement. The Y offers early learning, child care, camp, enrichment classes, recess programs, swim lessons, youth sports and much more. Our programs are all-encompassing to include mind, body and spirit for kids and adults at every point in their lives.

Evidence-Based Curriculum

The YMCA aligns our Student Care programming with evidence-based lesson plans while remaining flexible to meet the needs of individual schools. Our programs foster each child's cognitive, social-emotional and physical development by sparking an interest in learning through hands-on projects. Each day, children have the opportunity to extend school day learning through fun, project-based activities in STEM, arts & crafts, physical activity and nutrition.

Highly Trained Staff

Y staff are highly skilled at providing school-based programs for kids. Understanding that relationships matter, the Y often exceeds Washington State licensing standards for staff to student ratios. Each licensed staff member undergoes 30 hours of training through the STARS program. In addition, all staff participate in annual trainings, continuing education, staff development days, on the job training, and learning modules.

PARTNERING
TO MEET
YOUR
SCHOOL'S
NEEDS

**KEEPING

**“There is so
much power in
partnerships.
The Y really
compliments and
augments our
school program**

with our students and also makes sure our classroom efforts are aligned. It’s about sitting down together and talking about what your reciprocal relationship is.”

— Spencer Taylor, Executive Director of Education
EASTMONT SCHOOL DISTRICT
