ENVIRONMENTAL SCIENTIST
(EDMONTON AB, CALGARY AB, NEW WESTMINSTER BC) (FULL-TIME)

SYLVIS CAREER OPPORTUNITY

WHO ARE WE?
SYLVIS is a residuals management firm that provides environmental consulting and operational services to a wide range of clients in both the private and public sectors. At SYLVIS we believe that sustainability is intrinsically linked to our ability to manage our residuals through innovation. For more information on what we do, visit our website at www.sylvis.com.

WHAT WILL OUR ENVIRONMENTAL SCIENTIST DO?
The Environmental Scientist is a subject matter expert and a proven Project Manager. Projects will be related to the beneficial use of biosolids, ash, effluent, and/or other residuals. You will provide professional and practical support for a range of consulting and operational team objectives. You will manage multiple client-based projects concurrently, using metrics to ensure that deliverables are met on-time and on-budget. Environmental Scientist positions are available in our Edmonton, Calgary, and New Westminster offices. These positions will require you to:

- Use your technical knowledge of residuals, agronomy, soil science, plant science, reclamation, and/or other related disciplines to act as a technical advisor and subject matter expert.
- Use your exceptional communication skills to deliver high quality products to our clients. You will author and review proposals, presentations, reports and articles; you will lead meetings, host open houses, conduct tours, and make presentations to a diverse audience.
- Use your project management skills to deliver projects on-time and on-budget. You will effectively supervise contractors in both consulting and operational projects.
- Use your interpersonal skills to work effectively in a multi-disciplinary environment both internally and externally; you will develop and maintain key relationships with clients.
- Use your experience at operational sites to prioritize a culture of safety while maintaining efficient project operations.

WHAT DO YOU NEED TO SUCCEED IN THIS ROLE?
SYLVIS’s business is built on technical expertise, exceptional customer service, and a team-based approach to project delivery. To excel in this position, you need to be prepared to deliver outstanding service by drawing on your previous experiences. You:

- Have a graduate degree in a relevant environmental science-based discipline (e.g. agronomy, plant science, soil science, environmental management, environmental engineering) or combination of undergraduate degree and additional experience.
- Are a professional (e.g. PAg, RPBio, RFP, PEng) qualified to work in Alberta or British Columbia.
- Have a minimum of four years of experience in a related, progressing role which includes client liaison and/or business development.
• Have a **minimum** of two years consulting and/or operational experience with biosolids or other residuals such as wood ash, compost, and effluent.
• Have experience interpreting analytical data and managing environmental policy.
• Have experience using or developing carbon accounting protocols.
• Have excellent professional writing and oral communication skills.
• Have exceptional organizational skills and meticulous attention to detail.
• Are willing to travel to operational sites throughout Alberta and British Columbia.

As a member of an interdisciplinary team of professionals you will bring the following qualities to the position:

• A can-do attitude and superior attention to detail and quality,
• Exceptional organizational and communication skills.
• A willingness to work outdoors in adverse weather conditions.

**WHAT DO WE OFFER OUR EMPLOYEES?**

SYLVIS offers a healthy, dynamic, fast-paced team-orientated work environment, a commitment to ongoing professional development, and a benefits package. SYLVIS emphasizes professional integrity and the highest work quality that continues to exceed our client’s expectations. SYLVIS hires and retains exceptional people.

**HOW TO APPLY?**

Are you passionate about residuals and interested in advancing your career? We look forward to hearing from you! Send a cover letter and resume in confidence to SYLVIS via our website at [www.sylvis.com/our-company/careers](http://www.sylvis.com/our-company/careers). In your cover letter, please include a response to the following questions:

• Why are you passionate about residuals and residuals management?
• What has prepared you for this position?

We are looking to fill this position as soon as a qualified and suitable candidate is found. Applications will be reviewed as they are received.
