

Kindermusik enriches our families' lives.

What fun this program brings to our offices. Babies rock out and moms, siblings and staff join in. Local Kindermusik teachers bring their bags full of bells, rattles, clinkers and other instruments and noisemakers for a series of weekly sessions. Here's a chance for our clients to share a happy time with their kids, learn how "play-music" enriches family relationships and practice parenting skills with other moms. Find out more at Kindermusik's website <http://hansonstudio.yourvirtuoso.com>.

Enrichment programs like this help us promote good parenting skills and strong family values in the families we serve. We strive to provide activities that nurture relationships and engage families in healthy, stimulating -- and FUN! -- activities. Check out the hilarious YouTube videos and Instagram photos linked from our website.

Would you like to bring your toddler or pre-schooler? Call or email us to register and find out more.

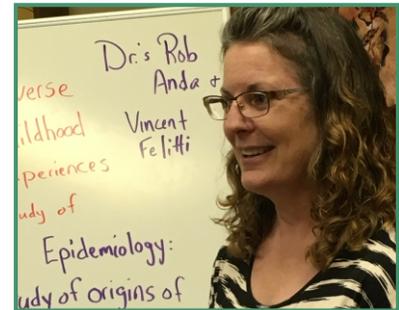

From Sue--

Counseling is the cornerstone of our services. Our peer counselors are equipped to effectively meet most of our clients' needs. However, some mental health issues require the skills of a trained therapist. We are grateful for the service of our professional counselor, Karen Bouril who sees clients once a week. As a success story, she's released two women from her services because of their growth and ability to cope with their situation.

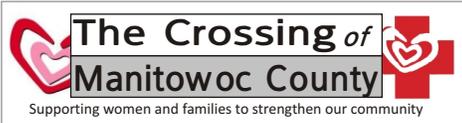

Because of you--

Our Baby Bottle promotion was a great success! On Mother's Day, over 1000 baby bottles were distributed through 12 churches in our community and the Catholic Parish. We asked you to fill them with donations and to return them on Father's Day. We have been overwhelmed with your generous response -- \$11,500 and counting! We'll be filling our pantry and expanding our services, thanks to you.

We LOVE--

Annie Jacobs, our Prevention Education Director, presented an important training session a few weeks ago on ACEs, adverse childhood experiences. Designed to increase awareness of kids at risk and promote strategies to increase their resilience, the program inspires new approaches to building healthy, self-healing communities. These skills will make a significant difference in our counselors' and our families' development.

Here's one client's story of bravery...

Nicole walked in our doors at the urging of her sister. Having left an abusive relationship, she came to Manitowoc with her infant daughter to make a new start.

"I left everything behind," she says. "Counselors and staff helped me emotionally, spiritually and physically with referrals for services, encouragement and practical life skills.

"Now I'm doing better than I ever would have imagined. I'm holding two jobs, living in an apartment with my daughter, have purchased a car and am returning to school."

Executive Director Sue says, "With her struggles and accomplishments, Nicole has been a blessing and inspiration to our staff and other clients."
