I Think / I Notice / I Wonder

Directions: Observe the graphic below and then share, in writing, what you think, notice, and wonder!

Hot Coffee To-Go Sizes

SM 10oz $1.64  MED 14oz $1.99  LG 20oz $2.30  X-LG 24oz $2.60

I Think:
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________

I Notice:
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________

I Wonder:
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________
Key:

Engaging in think-notice-wonder writing activities at the start of a math class is a great way to ignite student thinking, spark creativity, and build anticipation.

Even if students are not directly engaged in mathematical problem-solving, their curiosity and interest will carry on throughout the day’s lesson.

Be mindful that your kids will need some time to get used to these kinds of activities, but after a week or so, you’ll be pleasantly surprised by the spike in engagement, boost in student enthusiasm and high quality of responses!
