Name: ________________________________

Long Division Practice: 4x4

Directions: Use long division to solve each of the following. Be sure to include the value of the remainder, even if it is zero.

\[
6 \div 28,434 \quad 7 \div 58,683
\]

\[
21 \div 91,403 \quad 42 \div 36,305
\]
ANSWER KEY

\[
\begin{array}{c}
4,749 \div 6 = 28,434 \\
8,383 \div 7 = 58,683 \\
4,352 \div 21 = 91,403 \\
864 \div 42 = 36,305
\end{array}
\]
