Bringing together a premier global community of pension and investment professionals
Establishing trusted, long-lasting relationships

The founding principle of the Pacific Pension & Investment Institute (PPI) and the heart of its value proposition is the strength of its community.

With over 25 trillion USD in assets under management, advisement, and administration, the PPI community represents a powerful force in the global economy.

“PPI is a community. It’s a community of peers and very senior professionals of institutions around the world that have the same mission, and that is to deliver positive returns for their beneficiaries and/or stakeholders.”

OUR PROGRAMS

Navigating the global investment landscape

Pacific Pension & Investment Institute (PPI) roundtables provide members a unique opportunity to explore issues related to long-term investment. Limited to roughly 120 senior executives from the institutional investor community, these programs offer a forum for honest and confidential discussions on important themes and trends that affect asset allocation, risk management, and investment decisions.

In today’s complex environment for long-term investment, the Pacific Pension & Investment Institute (PPI) helps its members explore geopolitical and economic issues and derive tangible insights alongside trusted, industry-leading peers and external experts.

“…It is the kind of perspective that we need to hear, viewpoints from all sides. Unfiltered.”
