## Homespun

Homespun is Propellor's take on the classic spun metal light. We've had the metal work done close to home, working with a metal spinner in our neighbourhood. Spun by experienced hands, Homespun lights bear subtle traces of the tool grooves worn during the spinning process.

This light is all about colour. Let us know what palette of colours you are working with and we will customize Homespun for your space.

**Product:**  
Homespun light fixture

**Description:**  
Spun metal pendant light, fully customisable to project colour or material palette
