ABOUT

The Studio

Pass me the designer hat. You no longer have to be a jack of all trades. I'll make you look like the professional you are, so you can get back to what you do best.

Based in Southern California and working with clients worldwide, Letterform Creative is devoted to empowering small business owners to proudly pursue their calling. By taking the job title of "designer" off your plate, you will be able to focus on that which you truly love and are most gifted at. With professional branding and web design you will feel more confident to pursue your goals.

Letterform's approach to branding and design is to understand the mission, values, and core of what makes your business tick, all while diving deep to understand the needs of your audience and how you can help them.

With a strong foundation upon which to build, the design that emerges is thoughtful and intentional. It speaks in the right way to the right people. The cherry on top is the beauty and quality you can always expect from Letterform.

This guide will walk you through the process, packages, and timeline so you know what to expect when we work together.

I welcome new opportunities, but I particularly love working with these industries:

fashion / beauty / creative / health / food + beverage / wedding / coaching + education

The Owner

Megan Hampson

OWNER + DESIGNER

Hey there, I'm Megan! I received a degree in Visual Communications from Seattle Pacific University in 2011. After graduation I worked as a designer at an invitation company, a home-builder, and then a non-profit.

I started Letterform Creative in 2016 to focus on what I love most about design: branding and web design for small business owners. I enjoy the chance to help a business come to life and see a business owner's confidence sky rocket. The relationships I build with clients are my favorite part of the job.

A few other favorites: podcasts / black coffee cats / walking / mystery novels / running / cake morning devotionals / a good outfit / being outside
