

Custom Letter Loop Engraving Template

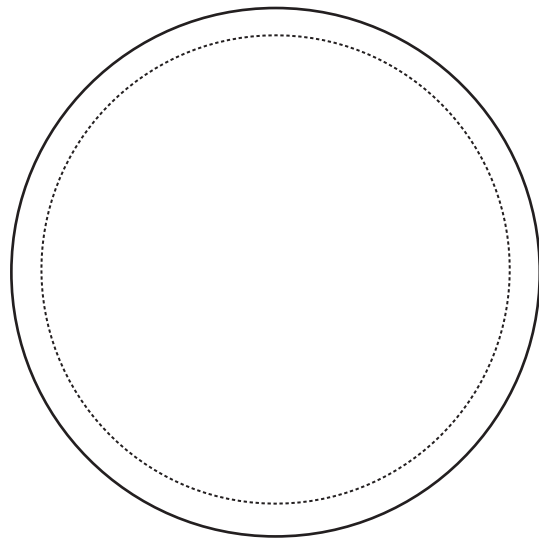

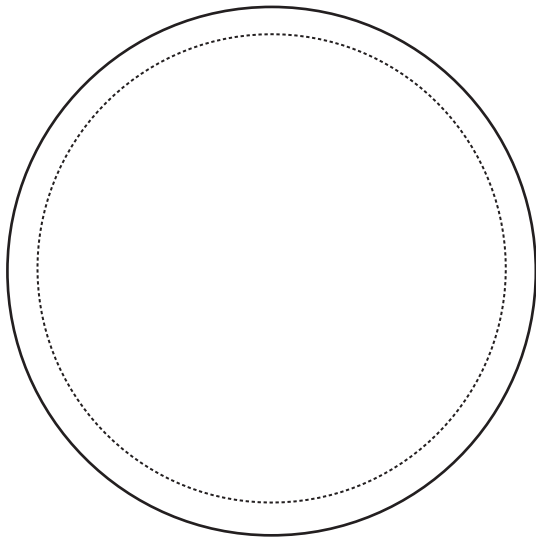

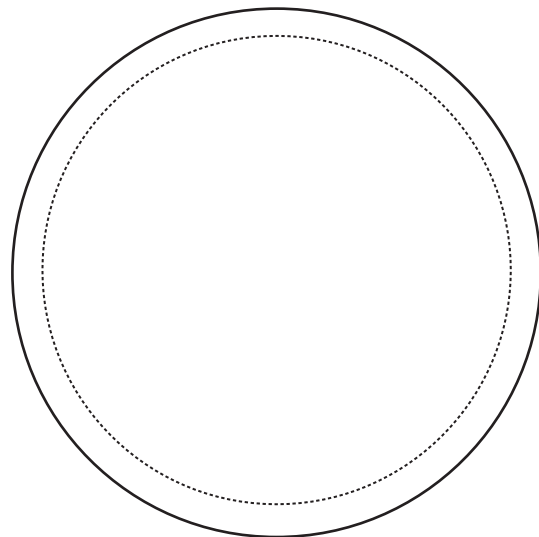

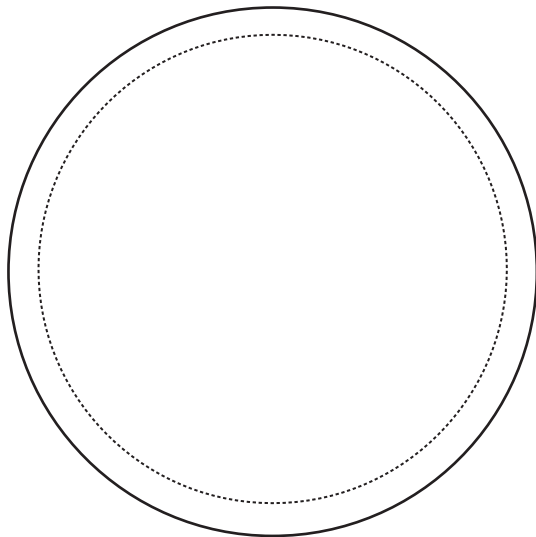

I'm so excited to get started on your custom engraving for your letter loop!

First up: print this page on plain white printer paper and write your message inside of the smaller circle. For best results use a pen with black ink.

You only need one, but there's a few extra circles for practice. Once you have your message perfected please double check spelling, then snap a photo!

You can use your phone for this, just be sure the photo is in focus and try to get as close to your note as possible. You can send the photo via a message on Etsy or send it directly to mbstyled@gmail.com with your order number included in the subject line.

If you have any questions or need help I'm always available!
