## Awards of EXCELLENCE 2004

Over the course of several weeks, more than 30 educator-judges test-drove over 140 products, looking for the "best of the best" in educational computing. Every title was evaluated by at least three judges, who rated products for quality and effectiveness, ease of use, creative use of technology, and suitability for use in a school environment.

Stationery Studio was honored to be among the **Technology & Learning Magazine 2004 AWARDS OF EXCELLENCE** winners in:

### Productivity, Creativity, and Communication Tools

This simple but powerful program, created especially for kids and classrooms, includes user-friendly design tools and lots of great ideas for using them. In addition to the note cards, name tags, and certificates one might expect from a program by the name of Stationery Studio, teachers will appreciate the activity suggestions and templates to get students excited about creating stories, newsletters, reports, postcards, mini-books, and more.
