EXPLODING KITTENS

Exploding Kittens is a highly strategic kitty-powered version of Russian Roulette. Players try to avoid drawing *Exploding Kittens* (which boot them from the game) using catnip sandwiches, deploying special ops bunnies, and seeking out the wisdom of an all-seeing goat wizard.

This game is kid-friendly, super fun, and easy to learn. It's a fast-paced party game perfect for family game night or as an anytime boredom buster.

ZOMBIE KITTENS™

Zombie Kittens is still the highly-strategic, kitty powered version of Russian Roulette that you love, but it introduces a brand-new deck of cards so that your game doesn't end just because you blow up. Only living players can win the game, but Dead players now get to keep the cards in their hands when they explode. They also get to play certain cards to torment the living players. And they can even come back from the Dead to win the game.

In the dice game version of “Catan,” you also build settlements, roads, cities, and knights. Here, however, building doesn't mean placing wooden or plastic game pieces on a game board.
