

## Outdoor Summer Camps: Ages 4+

- **Tracking Trails:**      **June 19-23 (9a-1p) \$250 Ages 4+**  
Have you ever followed an animal's footprints? Do you know how many toes a bear has? In our tracking trails camp, you will learn all about animal tracks and signs. Our week will revolve around solving the mysteries that the creatures of the forest leave behind for us.
- **Artists of the Forest:**      **June 26-30 (9a-1p) \$250 Ages 4+**  
Nature is full of endless inspiration for the artist in all of us. This week's camp will focus on art projects that relate to the natural world. Using natural materials and several different mediums, we will explore the forest and our connection to it.
- **Edible and Medicinal Plants:**      **July 10-14 (9a-1p) \$250 Ages 4+**  
Have you ever tasted a dandelion leaf? Did you know pine-needle tea is chock-full of vitamin C? In our edible and medicinal plant camp, we will learn about the many uses of local plants. We will make a natural "medicine kit" to take home, featuring many of the plants that we learned about.
- **Earth Stewards:**      **July 17-21 (9a-1p) \$250 Ages 4+**  
We all understand the importance of caring for the earth, though many people do not know what they can do to help. This week, campers will learn a variety of kid-friendly projects to help take care of the our world. We will have lots of fun while engaging in projects around the park, and many of these projects can be used in your own garden, too!
- **Survival Camp and \*Advanced Survival Camp\*:**      **July 24-28**  
**Survival Camp, ages 4+: (9a-1p) \$250**      **Advanced Camp, ages 6+: (9a-3p) \$300**  
Have you ever wondered if you could survive in the forest? What would you eat? Where would you sleep? How would you stay warm? We will answer these questions and more in our survival skills camp! We will use hands-on-learning to gain understanding and experience with the skills needed to survive in the wild. **\*This camp offers an advanced component for kids ages 6+.**
- **A Little Bird Told Me and \*Advanced Birding\*:**      **July 31- August 4**  
**Survival camp, ages 4+: (9a-1p) \$250**      **Advanced camp, ages 6+: (9a-3p) \$300**  
The birds tell us all kinds of things about what is happening around us. When they sing, they tell us that things are calm and peaceful. When they alarm, they tell us there may be a predator around. In this camp, kids will learn how to tell what a bird is saying, and how to use that information to connect more deeply to nature. **\*This camp offers an advanced component for kids ages 6+.**
- **Treasure Maps and \*Advanced Mapping\*:**      **August 7-11**  
**Survival camp, ages 4+: (9a-1p) \$250**      **Advanced camp, ages 6+: (9a-3p) \$300**  
Maps offer us an incredible resource for learning more about where we are. This camp will offer opportunity to follow maps, use a compass, and make maps of your own through a variety of activities and challenges - including a treasure hunt! **\*This camp offers an advanced component for kids ages 6+.**

All camps take place at Woodland Park and our taught by our outdoor enrichment instructor Brooke Ahlegian
