AlphaSleep Labs, LLC in Jackson Receives Program Accreditation

JACKSON, TN - August 5, 2016 - AlphaSleep Labs, LLC, with Corporate Headquarters based in Jackson recently received program Accreditation from the American Academy of Sleep Medicine (AASM).

“The American Academy of Sleep Medicine congratulates AlphaSleep Labs, LLC, David Scott who founded AlphaSleep Labs in 2008, and Medical Director Dr Kumar P Yogesh who has been with AlphaSleep Labs since its inception – on meeting the high standards required for receiving accreditation as a sleep disorders center,” said Dr. Ronald D. Chervin, AASM president.

“AlphaSleep Labs, LLC is an important resource to the local medical community and will provide academic and scientific value in addition to the highest quality care for patients suffering from sleep disorders.”

To receive accreditation for a five-year period, a sleep center must meet or exceed all standards for professional health care as designated by the AASM. These standards address core areas such as personnel, facility and equipment, policies and procedures, data acquisition, patient care, and quality assurance. Additionally, the sleep center’s goals must be clearly stated and include plans for positively affecting the quality of medical care in the community it serves.

The American Academy of Sleep Medicine accredited a sleep disorders center for the first time in 1977. Today there are only approximately 2,500 AASM-Accredited Sleep Centers across the country, of which, now AlphaSleep Labs is a part!

AlphaSleep Labs’ Corporate Headquarters is located at 935 Old Humboldt Rd, Suite C, Jackson, TN 38305. Their phone is 731.660.6199 and they have staff available Mon-Fri from 8 am – 4:30 pm.

The American Academy of Sleep Medicine is a professional medical society for clinicians, researchers, and other health care providers in the field of sleep medicine. As the national accrediting body for sleep disorders centers, the AASM is dedicated to setting standards and promoting excellence in sleep medicine health care, education and research.
