Guide created by Debbie Gonzales

## Finger Knitting

### Materials:

- Yarn
- Scissors
- Fingers

### Procedure:

- Step 1: Begin by placing long strand of yarn between thumb and forefinger.
- Wrap yarn behind forefinger, in front of middle finger, behind ring finger, and in front of pinkie finger.
- Step 2: Repeat pattern moving toward forefinger by wrapping yarn behind pinkie finger, in front of ring finger, behind middle finger, and in front of forefinger.
- Step 3: Repeat Steps 1 and 2 by wrapping yarn behind forefinger, in front of middle finger, behind ring finger, and in front of pinkie finger and back.
- Once complete, you should have two loops on each finger.

- **Step 4:** To Start the knitting process, beginning at the pinkie finger, lift the bottom loop (the one closest to the palm of the hand) over the top loop. Repeat this process with the other fingers.
- **Note:** Remember to always begin the knitting process at the pinkie finger.

- Repeat Steps 3 and 4 until your knitting project has reached the desired length.

- To **cast off**, beginning at the pinkie finger, transfer loop to ring finger.
- Lift the lower ring finger loop over the the upper one, leaving one loop remaining on the ring finger.
- Transfer the remaining ring finger loop to middle finger.
- Lift the middle finger loop over the the upper one, leaving one loop remaining on the middle finger.
- Repeat process until you have one loop remaining on the pointer finger.

- To **bind off**, insert cut strand into the final loop remaining on the forefinger and tighten.
