

"Helen Stalter"

by Doris Smith - November 2009

dedicated to Helen Stalter
In honor of her 2009 Faith In Service Award

Outside the kitchen Helen is seen
Watering plants to keep them green
Just a reminder Helen will share
"Much like people flowers need care".
Inside the kitchen Helen is "Queen"
Her eagle eye keeps everything clean
Soak those cups in Clorox water
At least ten seconds is the order
Look at the stove - my what a sight
Get out the Brillo and polish it bright
Holders with wax are next in line
With boiling water they'll clean just fine
Quite often the fridge is scanned by the pro
Checking that nothing is starting to grow
Tracking the silverware, pots and pans
Keeping a kitchen takes many hands
Helen is there with dust pan and broom
As well as mop to clean the room
When she is finished and waxing is done
The whole room shines like the morning sun
We thank Helen so much for all she's done
Setting an example for everyone
We know that she is still on the scene
Just making sure that everything's clean.
