## 11. Comprehensive Plan Rewrite

Scheel introduced Jackie Mich and Mike Slavney of Vandewalle and Associates.

Jackie Mich explained where we are at in the process.

Mayor Olson opened the meeting for public comment.

Roger Springman would like to see an infill analysis done for development purposes; would like to see a population growth analysis; boundary on a map for 20 years of growth; school data and mapping; a commuter parking lot and a new vision for the northwest development area.

Jackie Mich gave an overview of the comments received as follows:

- Amount of growth is a concern
- Emphasis should be on redevelopment and infill
- Need for more bike and pedestrian trails
- Interest in commuter assistance and regional transit

Jackie explained the recommended changes as outlined in the provided memo.

Truehl discussed community concerns about the number of acres shown and phasing of development

Scheel explained the map helps the City control areas close to the border through extra-territorial jurisdiction and noted property needs to be contiguous to annex to the City.

Hanna agrees with Scheel about planning for the future and using extra-territorial jurisdictional controls.

Engelberger stated indicated all of the areas that are undevelopable which leads to more area being shown on the map. The map is used as a guide for the future.

Mike Slavney stated the State originally required 5 year growth interval plans but removed that requirement due to false expectations. Slavney stated the Urban Service Area Amendment (USAA) line is a phasing line of sorts since it takes about 6 months to go through the process to have it considered for change. Slavney noted they can include language on the map regarding steps to amend the USAA line and add a paragraph in the text explaining why the amount of acres is used in long range planning.

Hanna suggested changing the northwest corner of US Highway 51 East and Pleasant Hill Road to Planned Mixed Use.

Engelberger questioned what are the next steps in the process?

Jackie Mich stated a joint public hearing with the Common Council and Planning Commission possibly for June 27<sup>th</sup> where the Planning Commission would hold the public hearing and

provide a resolution of recommendation to Council. The Council could then approve the plan by ordinance.

Motion by Engelberger to recommend proceeding with the public hearing with the recommended changes being implemented in the final draft document.

Scheel questioned what to do with all the comments such as those at the public hearing tonight.

Mike Slavney stated they could show locations of undeveloped infill parcels on the map; not every parcel but major undeveloped areas.

John Hallinan stated the plan should be for no more than 20 years of growth and separate areas that are undevelopable.

The motion was 2<sup>nd</sup> by Truehl. Motion carried 6 – 0.

**12. Future agenda items**

KPW GDP amendment

**13. Adjournment**

Motion by Hanna to adjourn at 8:10 pm, 2<sup>nd</sup> by Truehl. Motion carried 6 – 0.

Respectfully Submitted,

*Michael Stacey*
