Building Permit Application *(continued)*

Describe Work.

Change of Use From	Total Area
Change of Use To	Estimated Value of Work

Please Submit the following with this application

- Detailed drawings and specifications to include: Materials to be used, foundation detail, electrical/plumbing/heating and cooling layouts, roof/wall details, etc. Give as much information and detail as possible.
- New residential construction is required to have 2 sets of full blueprints and specifications, drawn by an architect or a draftsman.
- New commercial construction is required to have 2 sets of full blueprints and specifications, drawn by a licensed architect.

For Your information

- Any plumbing, electrical or heating/cooling work performed on residential or commercial properties must be done by a licensed contractor in the appropriate field.
- All work performed on a commercial project must be done by licensed commercial contractors in the appropriate field.
- The following plan check fee is due when this application is submitted to the Town of Huachuca City, and is non-refundable.
- The plan check fee does not include the permit fee. The Building Official will perform the plan check, then upon approval will submit the permit with the appropriate permit fees to be collected.
- The valuation of the work to be performed will be determined by applying the Building Valuation Schedule adopted by the Town of Huachuca City. The permit fee will be figured based on this valuation.
