

Geocaching Capital of Canada GeoTour

GCC#001 Post Turtle GC5M14E

Difficulty: ★☆☆☆☆ Terrain: ★☆☆☆☆ Size:  (micro)

I never was much into politics but my Great Uncle Trumann T. Turtle on my Grandpa's side of the Turtle family was a big-fish Politian in our little pond. We all called him a "Post Turtle."

If you are unfamiliar with this term let me explain:

When you are driving down a country road and you come across a fence post with a turtle balanced on top, THAT'S A POST TURTLE. "You know he didn't get there by himself, he doesn't belong there, and he doesn't know what to do while he's there. And you just wonder what kind of dumb ass put him there to begin with."

Folks, you are looking for a Post Turtle. This should be an easy find—while driving down a country road, or looking in our parliamentary assemblies.

N 45 00.611 W 078 14.350

GCC#002 Turtle Soup GC5RCAC

Difficulty: ★☆☆☆☆ Terrain: ★☆☆☆☆ Size:  (regular)

Soup?.....SOUP!!! I thought my bath water was getting a little hot! HELP! COME QUICK. I'm approximately 180m up a private trail at the owners' invitation. They seemed so nice. They offered to preheat my bath water. They raved about the anti-inflammatory properties of broccoli and the detoxifying benefits of seasoning salt. Yipes! I've been duped; I'm turtle soup.

HURRY, the steam is doing wonders for my complexion but my butt is blanched.

Parking: Drive over the hill and turn around at driveway 1231. Back at the top of the hill pull over on the right. Trailhead N 45 01.055 W 078 12.326 is across the road.

Hint: chg bhg gur sver

N 45 01.026 W 078 12.266

GCC#003 Damsel in Distress GC5RC88

Difficulty: ★☆☆☆☆ Terrain: ★☆☆☆☆ Size:  (large)

All you have to do is:

Find the castle

Enter the dungeon

Rescue the Fair Damsel

Claim the treasure

Easy-Peasy

The "castle ruins" are actually all that's left of the old Graphite Mine. Graphite from here was shipped to Germany to be used as a lubricant and for making pencils. The mine closed in 1915. In 1919 it was stripped of machinery and moved to the States. The fifty employees were invited to move with the Graphite Company. Many did.

On private property, this cache is placed with the owner's permission.

There is a small parking lot at the dam on Schofield Rd. . After crossing the dam there are 2 paths leading to the cache. The gentle Tupper Trail (90m) swings to the left. A more difficult (60m) trail goes right. Please keep small children close.

N 45 02.314 W 078 13.150

GCC#004 Spam Alert GC5QJPE

Difficulty: ★☆☆☆☆ Terrain: ★☆☆☆☆ Size:  (small)

You got an e-mail saying—your Best Geocaching Buddy (fill in name of your choice) went Geocaching in (fill in name of country you'd like to Geocache in) and mistook an ancient artifact for a geocache.

While trying to open it to sign the log book Best Bud got arrested and thrown in the clink. "Send money for bail," the e-mail said.

Sounds fishy? Don't take the bait. It's SPAM (and not the good kind in the can, yummm)—This cache will help you recognize the signs of SPAM and how to avoid them.

GCC#007 Class in Session GC5KAVQ

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

The log building at this site was originally S.S.#1, the first schoolhouse in Cardiff Twp.—built by Walter Kidd in the 1890s. Originally located on the Kidd property near Dyno Estates it was moved in the 1970's to Hwy 28 as a tourist booth and then moved in 2005 to its present site where it serves as a local history museum and genealogical database of the pioneering families.

The other building was the Highland Grove school. It now functions as a public library and community centre where the "Ladies of the Grove" serve up memorable suppers.

This cache mimics its nearby sister buildings. Be sure to take the time to admire the interior details.

N 45 04.408 W 078 05.260

GCC#008 Webster GC5R36M

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

Failure is not a word in Webster's dictionary. This cache is easy to spot and—if you are agile and have any experience with laser lights—easy to access. Good Luck.

Take the time to also find "Legend of Great Bear." The nearby path to it takes you beneath majestic pines along the shore of Buckskin Lake. Other caches close by: Heads or Tails, Rusty Bedsprings by I.P.Knightly, Wedlock Hemlocks, Something to Crow About and another GeoTour Cache- End of the Line # 1

GCC#011 Dragons in our Midst GC5QYR2

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

This giant insect was erected in 1998 as a tribute to the Hamlet of Cardiff and is now a symbol of the village. Constructed out of recycled plastic, copper roofing material and an old water tank for the head, this giant dragonfly is one of a kind and is probably the largest dragonfly in Canada with its 16 foot wing span. Even if it doesn't keep all the black flies away it's definitely a unique sight.

N 44 59.641 W 078 00.961

GCC#013 Knock on Wood GC5Q4DY

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

Bang your head against any tree and I'm sure you'll agree that they're all hard. Yet we divide trees into two categories; hardwood and softwood. In general, hardwood comes from a deciduous tree which loses its leaves annually and softwood comes from a conifer, which usually remains evergreen. Hardwoods tend to be slower growing than softwoods, and are therefore usually more dense. That's not to say hardwoods are stupid.

This cache is made of wood. If you can't open it you may look a little dense. Banging your head on it will make you look even denser. If you never do get it open the oaks on you.

N 45 09.726 W 078 09.170

GCC#014 Kennaway GC5K9H4

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (large)

The first settlement in the Harcourt area, Kennaway is recorded as being settled prior to 1850. A post office was established in 1876 and ran until 1923. In 1868 it was recorded that 9 settlers, 50 dependants, 15 cattle, 5 sheep, 9 hogs and 2 horses lived in this settlement. As settlers moved out west to greener pastures, the school closed in the late 1930s and the children were transferred to Harcourt. The school still stands and is now a private cottage.

When Ken is away, Barbie will play!

N 45 09.902 W 078 09.183

GCC#015 Unusual Specimen GC5M140

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

The Geocaching Capital has many treasures. Geocachers come for the caches, Rockhounds come for the gems. The Municipality of Highlands East is famous for its fine specimens of green apatite, deep purple fluorite, mica, tremolite, zircon, titanite, feldspar, and several rare and unusual species like fluororichterite, and stillwellite.

You are looking for what a Geocacher would recognize as a very rare and unusual specimen. No Digging Required.

GCC#016 Swimming Trunks GC5K829

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (small)

Gooderham Lake (formerly Pine Lk) sits ABOVE the village of Gooderham. If the lake ever overflows its banks it will pour down the town's main street taking the cache with it. SO, if the weatherman forecasts 40 days and 40 nights of rain you had better go get this cache, PRONTO. It's a lovely spot.

Pack a picnic and don't forget your swimming trunks. Sorry, no pets allowed on the beach. Return cache gently to its location bottom end up.

Hint: Ernpu sbe vg

N 44 54.516 W 078 22.765

GCC#017 Gooderham Pioneer Cemetery GC5K7V8

Difficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (small)

The first post office was established in 1873 and was called Pine Lake. Local legend has it that the towns name was changed to Gooderham when a smooth-talking liquor salesman from the Gooderham & Woorts Distillery Co in Toronto breezed into town with a —sample keg of his finest spirits to persuade the 3 local hotel keepers to feature his products. The sampling made such a lasting impression on the locals that Pine Lake was promptly changed to Gooderham. Now that's salesmanship!

The Gooderham Pioneer Cemetery was used from 1853 to 1905 by the early settlers of the community. Use the information on the plaques and cenotaph to solve for the final co-ordinates.

Cache is located at

N 44 54.AB3 W 078 22.C91

A= number of fallen heroes killed in action

B= number of years Hank A. Graham held in his position

C= number of names listed as buried in Pioneer Cemetery minus 39

Take the time to remember sacrifices made.

GCC#025 That's Not Natural GC5K7P0

Difficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (regular) 🗝️ Multi

Yep, this is something you don't see every day. Obviously, it's not natural. Any trail savvy Geocacher will tell you that this didn't happen overnight. Heck, even a newbie Geocacher will say the same thing. Naturally you'll want to take a closer look. And, naturally, you'll understand why I couldn't resist making it the 1st stage of this multi-cache. Now, it may seem a little unnatural but at this first stage I've given you two options for finding the final—GPS coordinates and a Compass Bearing. Naturally, I'm leaving the decision up to you. If you are naturally inclined to try something different, bring a compass. This cache, located in the picturesque roadside park at Furnace Falls marks the most westerly cache in the Geocaching Capital of Canada.

GCC#031 Clowning Around NIGHT Cache GC5RE63

Difficulty: ★★★★★ Terrain: ★★★★★ Size:  (large)

This is a Night Cache requiring a flashlight AND a UV light.

Park at the 1st Trail Head and enjoy a nighttime stroll on the Old Burleigh road (830 metres) to the second trail head. This is a wide trail and relatively flat walk (Ok, I'll be honest, there's one little hill at the start) You will need a flashlight unless the moon is full.

Once at the second trail head, the posted coordinates, you will need a UV light to reveal the bush trail to the cache (90 metres). The first 45 metres is uphill; the remaining 45 metres is flat but the entire trail is much less defined than the Old Burleigh road so follow the markers.

Don't own a UV light? Don't worry, the Geocaching Capital of Canada will rent you one (pretty much for just the cost of replacing the batteries.) Pick one up at the General Store in Wilberforce during business hours.

Please wait until dark to attempt finding the second stage of this cache. If you are twiddling your thumbs waiting for nightfall, take the time to find other caches on the Old Burleigh Rd.; Bewitched, For Your Viewing Pleasure, Wilberforce Be With You and Then Came You.

GCC#040 Snapping Turtle GC5R6Q5

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

The snapping turtle is Ontario's most prehistoric-looking turtle species. Its long tail has a series of triangular spikes along the top that are reminiscent of those of a stegosaurus.

The store across the road, built in three sections, was a working general store from 1895 till it closed in 2011. Located next to the Irondale, Bancroft & Ottawa Railway tracks, it established Highland Grove as the commercial hub of the area. The original southern half of the store was winched up the hill and joined with the 1905 northern store addition. The kitchen was added in 1940. It is now a private residence.

Once you find the cache, you will have to hunt for the log. Please put everything back as you found it.

GCC#042 Sun Village GC5K7RG

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (small)  Multi

The sculpture is John Leonard's interpretation of the effect Hunter's Sawmill has had on the village of Gooderham, with the saw representing the sun, shining over the village below. Made of genuine historic artifacts consisting of a saw, which was being used up until it was made part of the sculpture, and the water turbine, which is over 100 years old and was used in the original sawmill.

The original saw mill was built on the river, since there was a great need to use water energy to make production possible and bring the logs to the mill. The sawmill was then moved across the road and is still in operation today.

The cache is located at

44 54.A1B

78 22.C28

A= number of holes in the sawblade

B=number of cogs in the centre wheel minus 15

C= number of houses

When you find the cache, you may have to look a little harder to locate the log.

GCC#044 Take Your Turn GC5K7T1

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (large)

The arrival of the Irondale, Bancroft & Ottawa Railway (I.B.& O) in 1891 led to a boom in the local sawmill industry. Several mills sprang up in and around the village of Gooderham, the most famous being the Hunter Mill. John Hunter had previously lived near Kinmount, but recognizing an opportunity, moved to Gooderham in 1875 and built a sawmill on the falls coming from Pine Lake. Hunter Lumber Mill is still in full operation: long after the demise of the I.B.& O and employs approx. 30 people.

It's time to play "Take Your Turn" with game show host Tupper T. Turtle. On private property with owner permission. Please park outside gate and walk to cache.

GCC#057 Beware of Crocs GC5QA88

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

Caution, danger may lurk in the shallows.

Originally named Devil's Lake, the name was changed to Salerno to commemorate the prominent role of the Canadian Army in the Salerno landings of 1943 at the Italian city of that name.

Approx. 6 km long, Salerno Lake is narrow with an average depth of 7.6m (25'). Two spots are as deep as 14m (45'). The primary inflow, at the southwest, is Salerno Creek from White Lake.

The primary outflow, at the northwest, is also Salerno Creek, which flows over a dam to the Irondale River, then via the Burnt River, the Kawartha Lakes, the Otonabee River and the Trent River to Lake Ontario. The Salerno Crocs probably swam from Florida, up the coast, in the St. Lawrence River to Lake Ontario then made their way upstream to Salerno Lake. Seems pretty plausible to me.

Take the time to see how nature compensates. The two trees in this picture are actually branches of a fallen tree.

GCC#074 Tupper's Toiletries GC5QA8K

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

Tupper says, "Cleanliness Counts. Always take the time to Cache In Trash Out." That's what Irondale's mining history did. Irondale got its start in 1870 after large deposits of iron were discovered. At one time Irondale boasted three hotels, boarding houses, miner's cottages, two stores, a post office and a barrel factory. The mine lasted until 1900. Most of the early mining remnants have disappeared. Of interest: Irondale spans what was once the boundary of Glamorgan and Snowdon townships (now part of the municipalities of Highlands East and Minden Hills). The land that this Ball Field and Community Centre sits on was given to Glamorgan Township by Joe Fetch in 1974. The Glamorgan Council sold it to Snowdon Township for \$1.00. So now, the Irondale Ball Field and Community Centre is situated in one municipality but owned by the other.

GCC#082 Are you Addicted? GC5MB1B

Difficulty: ★☆☆☆☆ Terrain: ★☆☆☆☆ Size:  (small)

Are you hooked on geocaching?

- Are you are familiar with terms like, 'Co-ords', 'TFTC' or 'SLTNLN'
- Do you actually look forward to visiting the in-laws?
- Is your driveway covered with spray painted cache box silhouettes?
- Have you begun making grocery purchases based on the items usefulness as cache containers?

If this describes you, chances are you're addicted to geocaching. But is that a bad thing? Of course not!

You can geocache anywhere around the world. You see awesome scenery, interesting historical sites and wander tranquil trails. You breathe fresh air; bask in the sunshine, dance in the rain. You soothe your feet in flowing streams and fall flat on your face in mud holes while reaching for elusive caches.

I imagine that you, like I, appreciate the fact that geocaching is for everyone, the hatchlings, the teen turtles, the senior tortoises. Do you, like us, pack a picnic lunch and make geocaching a family outing? I admit it, I Tupper T. Turtle am addicted to geocaching.

Test your addiction with this next cache. It is probably the most boring cache you'll ever find, even for a novice. It's beside a parking lot. There's no interesting history lesson, no swag, probably no muggles to sneak past. In fact, there's nothing to be gained from finding and logging this cache except another smiley and one more number added to your stats. It's a simple park and grab. So... will you bother to find it? Are you addicted to geocaching?

GCC#094 Foresight/Hindsight GC5NVD0

Difficulty: ★★☆☆☆☆ Terrain: ★★☆☆☆☆ Size:  (regular)

This stretch of quiet country road was once wooden ties and iron rails of the I.B.&O. railway. After the railway shut down in 1960 the tracks became municipal property. The municipality of Monmouth, where you are walking, kept all its rail-bed. The municipality of Cardiff (starting from where you parked) sold off its rail-bed. Thus explaining why this road turns from public to private property. Moral of the story is: Take the time to imagine future possibilities.

Dark Lake, beside you, was once called Pusey Lake after the railway's founder Charles J. Pusey.

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

Local resident Paddy O'Hooper created this cache. Take the time to appreciate the labour involved to produce it.

Fun Facts:

Horses can sleep both lying down and standing up.

A horse's teeth take up more space in their head than their brain.

Horses have bigger eyes than any other mammal that lives on land.

Because horse's eyes are on the side of their head they are capable of seeing nearly 360 degrees at one time.

Horses gallop at around 44 kph

The fastest recorded sprinting speed of a horse was 88 kph

Estimates suggest that there are around 60 million horses in the world.

GCC#130 What's Your Handle?

Difficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (regular)

Truckers have "handles". Geocachers have "usernames". To solve this cache and record it as a find you'll need both. That's a big 10-4 Good Buddy. Copy that?

N 44° 58.094 W 078° 24.880

GCC#131 Catch UP

Difficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (regular)

HOMONYMS are words that sound alike but have different meanings. Homophones are a type of homonym that also sound alike and have different meanings, but have different spellings.

HOMOGRAPHS are words that are spelled the same but have different meanings. Take your time, no need to rush. When you eventually catch up to this cache you'll catch on.

N 44° 55.999 W 078° 21.524

GCC#132 Letter From Home

Difficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (regular)

This cache is for all you Letterbox cachers out there. If you aren't a Letterboxer, just log it as a regular find. Of course, that is assuming you DO find it. Good Luck.

There is nothing to be found at posted coordinates. To find a letterbox, you need to follow a few simple instructions.

Start at the posted coordinates and go 27.6 m at a bearing of 93.84 degrees. Alternatively, locate a metal post at the edge of the treed area. Enter the area to the left of the cedar tree at the post. Walk 13 paces then turn left at the short needled tree (I'm a geocacher, not a botanist). Walk 12 paces and you will be "Home". The combination to open the front door is 1-3-2.

The cache contains a stamp for Letterboxers to stamp their books. This stamp remains in the cache.

There is no ink pad, please bring your own.

N 44° 58.394 W 078° 16.492

GCC#133 Tiles

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (large)

Ceramic, porcelain stone and slate.

Tiles for the floor

Come in many a state

But Geocaching tiles

Are so much more fun

'Cus they come with a secret

And a prize to be won.

If you find this cache difficult don't get "Grout-chy." Forgive me, I couldn't resist the goaner.

Many thanks to the very talented Willy Ewaschuk who built this cache for the Geocaching Capital of Canada GeoTour. If you're a history buff here's some info on the charming little Essonville church nearby.

In 1888, Rev. Watham bought the property from Jacob Steibel. He in turn sold the property the church is built on for \$1.00 to the diocese of Toronto. Three large pine trees on the ground were cut down. The logs were hauled to Mr. Richard Dunford's saw mill in south Wilberforce by team and wagon and the lumber brought back to build the church. Thomas and William Graham from Wilberforce were hired to build the church. All the planing of the lumber had to be done by hand. Mr. Watham was the first minister of the parish, his home just west of the church. As the years went by, attendance at the services declined to the point that services were discontinued. In 1968, the church was deconsecrated. For a period of time, it was undecided what the future of it would be. In 1971, the property was deeded from the Anglican Synod to the Township of Monmouth for \$1.00.

Both the church and pioneer cemetery have been painstakingly cared for and maintained. Two services are still held here each year.

GCC#136 Some Assembly Required

Difficulty: ★★★★★ Terrain: ★★★★★ Size:  (regular)

If you still have a partially assembled closet organizer in your garage, turn around and walk away from this cache because, **SOME ASSEMBLY IS REQUIRED** to get the coordinates for the final.

If you didn't heed my warning, still have some hair on your scalp **and the new coordinates in hand**, follow this piece of the old highway that once led to Wilberforce until it abruptly disappears under a scenic wetland created by a massive beaver dam. Beavers have outstanding "ASSEMBLY" skills
N 45° 01.022 W 078° 13.336

GCC#137 Herlihey Park

Difficulty: ★★★★★ Terrain: ★★★★★ Size:  (virtual)

The posted coordinates will take you to the former sight of the Wilberforce Veneer and Lumber Co.—the future location of Herlihey Park.

Harold Herlihey was born in Kinmount in 1908. In 1919 the family moved to Tory Hill, where Harold became involved in his father's general store and lumber business. He attended Technical high school in Toronto, then returned to Tory Hill, marrying Beatrice Schickler, a school teacher from Harcourt, in 1933. In 1937 they moved to Wilberforce, where Harold was involved in building a saw mill for the Oakville Basket Company that became the Wilberforce Veneer and Lumber Company. Harold served as general manager of the mill, acquiring an interest in it and becoming vice-president. Wilberforce Veneer was sold to Curvply in 1968. He remained as a consultant and general manager for a further two years, and then retired.

In 2017 this 7 acre parcel of land on the shore of Dark Lake was donated to the Municipality of Highlands East by Carol Jean Marcus, the daughter of Harold and Beatrice Herlihey. The park has been dedicated in their memory.

To claim the virtual find, you will need to visit two locations and take three photographs.

1) At the posted coordinates you will see the world famous Geocaching Capital of Canada sign! Take a thumbs up photo - be sure you clearly show you are at the sign - and also include it with your log. You don't need to show your face if you don't wish to - however, we do need to know each individual logging the cache was truly there!

2) At N 45 02.340 W 078 13.244 snap two pictures -- one looking towards the lake and the other across the lot towards the road, and post them with your log. Your photos will document the transformation from a vacant lot to a beautiful Parkland over time.

Note: Your GeoTour Passport code word will be messaged to you when the requirements are met. N45 02.340 W78 13.244

GCC#138 Water Works

Difficulty: ★★★★★ Terrain: ★★★★★ Size:  (Micro)

The Geocaching Capital of Canada Waterways and Wetlands Authority has installed this cache to monitor water levels and geocaching activity in and around Grace River. Flow levels are monitored regularly and test results show that it is in prime working order.

GCC#139 Entrapment

Difficulty: ★★★★★ Terrain: ★★★★★ Size:  (regular)

I hate to spring this on you but, could this cache be considered "entrapment?" ...probably!! Still, it's a mouse-do cache for any geocacher. Say, "Cheese Please" and take advantage of a great photo-op.

You're welcome to post your pictures with your log.

No bushwhacking required. Follow the path from the given trail head. On Private property with owner's permission. Foot traffic only

.N 45° 04.910 W 078° 11.881

Trail Head: N 45 04.929 W 078 11.743

GCC#140 Quarter Back

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

This cache could **change** your outlook on life. At the very least you should get a **charge** out of it. We hope it **racksup** favourite points. The Geocaching Capital of Canada GeoTour inherited this cache from the original Cache Owner Deb Lanktree who lost her battle with cancer but not her passion for geocaching. Hence in memory of Deb, Quarter Back is back.

On Private property with the owners permission so don't hesitate to venture in the long 650m driveway.

GCC#141 Shelly

Difficulty: ★☆☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

Shelly used to be a DNF because she is very shy but thanks to Geocaching she has come out of her shell. Stop by and say Hi

GCC#142 Patience Grasshopper

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

John Quincy Adams said, "Patience and Perseverance have a magical effect before which difficulties disappear and obstacles vanish." **Be patient and persevere Grasshopper, you've got this.**

N 44° 59.450 W 078° 09.524

Parking: N 44° 59.537 W 078° 09.849

GCC#143 Magic Act

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

You have been selected from the audience to assist TRICKY T. TUPPER "Magician Extraordinaire," with his next Magic Act. Tricky T's assistant, Bobble-Head Betty, is trapped in the magician's black box. Free her and the cache will magically appear.

Note: No turtles were permanently dismembered in the creation of this cache.

GCC#144 Stacked Against You

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)  Multi

It doesn't stack up, or does it? When it does, you'll have the coordinates you need to complete this multi. If it doesn't stack up blame my buddy Fred Teusink. He's the one that created this cache.

From the parking area the final is about 800 m up the Forest Access Rd. You may think that instead of the uphill walk, I'll just take the car up, the road looks good. **STRONGLY ADVISE NOT TO.** If you came by ATV, enjoy!

Parking: N 44° 59.537 W 078° 09.849

GCC#145 Lower the Boom

Difficulty: ★★☆☆☆ Terrain: ★★☆☆☆ Size:  (regular)

Remember when your parents "Lowered the Boom" and grounded you for coming in late. Well...this cache isn't such a downer. It's more of a blast.

N 44° 59.512 W 078° 09.719

Parking: N 44° 59.537 W 078° 09.849

GCC#146 Bead WorkDifficulty: ★★☆☆☆ Terrain: ★★★★★ Size:  (regular)

Count on your fingers,
 Count on your toes
 Count on being here awhile,
 Cus, that's how it goes.
 From beginning to finish
 By yourself or with a friend
 The count you come up with
 Is what you need in the end
 (Bring your bifocals)

GCC#147 TMNT in the GCCDifficulty: ★☆☆☆☆ Terrain: ★☆☆☆☆ Size:  (regular)

Check out the newest Blockbuster Teenage Mutant Ninja Turtles movie with guest appearance by Tupper T. Turtle. Now available on VHS. This cache is appropriately placed in prime Ninja turtle territory—between a swamp and a Sewage Disposal Site. Refrain from crawling in strange ooze, or you may mutate into a turtle-like Ninja Geocacher. On second thought, would that be so bad? P.S. Bring a pen, Raphael may be available to sign autographs.
 N 44° 59.550 W 078° 09.168

GCC#148 HootDifficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (small)

Birds of a feather flock together. Who's up for having a hoot at the Anchorage? For this bird-brain, lunch is on the house, literally.
 N 44° 57.670 W 078° 02.406

GCC#149 Firefighters Kick AshDifficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (regular)

I'm really pumped about this cache. If you want to drive the fire truck, first you'll need to find the combination to the fire hall door. Remember, when tempted to fight fire with fire ... firemen usually use water.
 N 44° 56.862 W 078° 01.848

GCC#150 Celebrate Canada DayDifficulty: ★★☆☆☆ Terrain: ★☆☆☆☆ Size:  (large)

This cache celebrates not only Canada's 150th birthday but YOUR birthday too. Make a wish and blow out the candles. Then revel your age and open your present. It's okay to say you're 39...AGAIN.
