 - The majority of human trafficking victims in the U.S. are sex trafficked, U.S citizens, female & under 25.
 - DEMAND FUELS HUMAN TRAFFICKING - we can make conscious decisions as consumers to lessen demands that are met by exploited people.
 - Human trafficking victim services - particularly for teenagers - are extremely lacking across Wisconsin.
 - Pass complete WI Safe Harbor legislation that not only stops arresting children for prostitution but also provides effective, accepted services for them.
