

## PERCUSSION XYLOPHONE FRAME

The **CORPS DESIGN** Xylophone Frame is width and height adjustable to accommodate all models of xylophones. The asymmetrical caster configuration makes this frame incredibly stable, even on uneven surfaces. The removable auxiliary rail provides protection for the outer edge of the instrument and many accessory options. The Xylophone frame comes with 8" no-flat casters. All stress points are welded 360° and ground flush. The frame is powder coated for a superior, long-lasting finish.

Accessories attach with any standard 1 ½" square percussion clamp. Add **CORPS DESIGN** Accessory Tables (CDTRAPS and CDTRAPL) or a **CORPS DESIGN** Crash Cymbal Caddy (CDCRASH).

Treble Width - 16". Bass Width - 32". Instrument Length - 49" – 82".  
Height to Base of Instrument - 27" – 36 ½". Total Length - 62 ½" – 98".  
Total Width - 35 ¾" (at widest point, with aux. rail).  
Total Width - 32" (at widest point, with aux. rail removed).  
Ground Clearance - 10".

**Accessories/Add-ons are available for CORPS DESIGN products.**

All **CORPS DESIGN** Products are made in the USA and come with a limited 3-year structural warranty.
