

VISUAL - PROP MEDIA CARTS

The **CORPS DESIGN** Adjustable Media Frame is designed to move and display all of your prop prints. These frames adjust to easily display various sizes of prints. The caster legs telescope from 3.5' to 6' to give extra stability with large displays that may catch a more wind. Frames are built to allow multiple media frames to be placed flush together.

Frames come in the following sizes:

CDMED1.4 (4 wheel)

These models adjust from 4'(w) x 6'(h) to 10'x 10'.

Adjustable Wheel Base: 41" – 78"

Includes 2 expansion sleeves for widths 8' – 10'

Includes 2 8" Ever-Roll swivel casters & 2 8" Ever-Roll fixed casters

CDMED3 (MONSTER)

This model adjusts from 10'(w) x 10'(h) to 14' x 14'.

Adjustable Wheel Base: 72" – 96"

Includes 2 expansion sleeves for widths 10' – 14'

Includes 2 8" Ever-Roll swivel casters & 2 8" Ever-Roll fixed casters

Accessories/Add-ons are available for CORPS DESIGN products.

All **CORPS DESIGN** Products are made in the USA and come with a limited 3-year structural warranty.
