California Council for Adult Education
On behalf of the Executive Board I want to welcome you to our 2019 State Conference. Seventy-five years ago a group of concerned educators got together to establish the California Consortium for Adult Education (different name at that time) in an effort to bring public awareness to an educational program that served a population that was often overlooked and misunderstood and that faced significant barriers to prosperity. CCAE would grow to be the strongest voice in California for this population, and it is folks like you who are the source of that strength.

Personally, I’m glad you made it to our conference. The Southern Section has planned an amazing 75th Celebration as well as relevant and timely workshops that will strengthen your skills and continue to make California Adult Education the envy of the nation. Make sure to visit our vendors as well. Not only are they vendors but also supporters of adult education. They have made a choice to invest in California Adult Education and, just like any business, that comes with risk. Let’s help them see that they made the right choice.

Finally, I want to thank all those educators, support staff, and administrators who have invested their personal time to support CCAE. Whether it is serving on a state or section board, a committee, or local chapter, I know your support is a choice that comes with some sacrifice. Your work makes me proud to serve as your president!

Learn, grow, network, and enjoy the conference.
