

## Livestock Study Committee Presentation Series

Both of these presentations will take place at the **Northern Great Lakes Visitor Center** and are free and open to the public.

**Thursday, May 28, 7-8:30**

### **Understanding Nutrient and Sediment Loss from Agricultural Landscapes**

**Eric Cooley, Co-Director, UW-Discovery Farms**

Learn how farming practices affect nutrient and sediment loss to surface waters.

---

**Wednesday, June 3, 7-8:30**

### **Surface Water Quality in the Chequamegon Bay Region: What We Know and What We Don't**

**Dr. Randy Lehr, Professor of Environmental Science and Management, Northland College**

Learn how water quality is monitored and what we do and don't know about the health of our waters in the Chequamegon Bay region.

Hosted by:

**Bayfield County Large-Scale Livestock Study Committee**
