Looks like **Kendall Jenner** is officially off the market! A source confirmed exclusively to *US Weekly* that the 20-year-old supermodel and rapper **A\$AP Rocky** are indeed dating stating, “It’s the real deal.”

The pair have been spotted multiple times together over the past few months, causing speculation. They were first spotted together in February, when the rapper attended the model’s PacSun launch in New York City.

They were also seen together in Paris during Menswear Fashion Week in June, and later in July, Jenner was spotted cheering on Rocky during his set at NYC’s Panorama Festival.

The Jenner sister even brought the rapper to her sister Kylie’s 19th birthday party at the Nice Guy restaurant in Hollywood at the end of July, and the two reportedly left side-by-side.
