

Clean living

a simple, sustainable and economical way to ditch the harsh chemicals and create a healthy home

1. TOXIC OVERLOAD

Conventional personal care products and cleaning products contain a slew of toxic ingredients that are damaging to our body and the planet. Children are the most impacted as their systems are smaller and their skin is more permeable. Some of these toxic ingredients include PEGs, SLSs (foaming agents), synthetic fragrances, synthetic colours, phthalates and aluminium. These synthetic chemicals are endocrine disruptors, carcinogens, allergens, and/or neurotoxins. Sadly, they are found in products we use every single day like shampoo, conditioners, toothpaste, household cleaners and laundry liquids. Pharmaceuticals also contain synthetic ingredients with harmful side effects and often act as ‘band-aids’ instead of addressing the root cause.

2. NATURAL ALTERNATIVES

As conscious consumers, we want natural alternatives for ourselves and our family that are safe (non-toxic), powerfully effective, eco-friendly as well as cost effective. We aspire to be chemical-free and pharmacy-free, as nature intended.

3. YOUNG LIVING AS A ONE-STOP ONLINE SHOP

Founded in 1994, Young Living is an ethical and global organisation that makes the world’s most comprehensive range of personal care products (including make-up and sunscreen), household cleaning products, TGA approved supplements and an entire range of products for babies, kids, men, and pets. Made with all-natural, plant-derived, eco-friendly ingredients, you will have total peace of mind in creating a toxic-free home environment for your family with the added convenience of being able to order them online and have them delivered straight to your door. Streamlining the purchasing to a one-stop online shop provides simplicity, relief, and avoids the need to shop from multiple places and websites.

4. BECOME YOUR & YOUR FAMILY'S HEALER

Young Living is also the world leader in the essential oils movement with decades of industry leadership. With the largest range of the highest quality, most rigorously-tested essential oils on the planet, Young Living is the only oils company that produces truly therapeutic-grade, environmentally sustainable, unfractionated oils with unparalleled purity and potency and provides full sourcing and processing transparency.

Essential oils of this quality are potent plant medicine at their core enabling you to reclaim power as your family's alchemist and healer! Their uses are broad-ranging and include:

- deepening sleep / settling babies
- enhancing movement / relief of osteo-skeletal symptoms
- calming the nervous system
- purifying the air / killing mould / opening congested airways
- supporting digestion / regulating hormones / boosting immunity / improving clarity of thought
- being used as the original perfumes, aftershaves / air-fresheners
