

Vibrant health

an empowering way to become your family's healer and
step into a more vibrantly healthy life

1. FROM TOXIC OVERLOAD TO NATURAL ALTERNATIVES

With the increasing toxicity in the world it is becoming more important that we use and turn to natural alternatives to heal and nourish our body. As conscious consumers, we aspire to be toxin-free and pharmacy-free, as nature intended. This aspiration becomes even more pronounced in parenthood, which for many is the most powerful catalyst to become more intentional with everything that is put into and on our family's body. Instead of using pharmaceutical 'band-aids' with harmful side effects that fail to address the root cause, we want natural alternatives for ourselves and our family that are safe (non-toxic), powerfully effective, eco-friendly as well as cost-effective.

2. BECOME YOUR & YOUR FAMILY'S HEALER

Plant botanicals, and the potentiated versions of them - essential oils, have been used by mankind for millennia as nature's remedies for support and healing. Essential oils have gained so much popularity in recent times as more and more people are becoming disillusioned by the conventional pharmaceutically-driven health care model and the toxicity in their homes and the planet. The demand for more natural and safer options is increasing exponentially.

When it comes to therapeutic use of essential oils, Young Living sets the standard for the industry and has gained the reputation of being the undisputed world leader in the essential oils movement. Founded in 1994, YL makes the largest range of the highest quality, most rigorously-tested essential oils on the planet. Young Living is the only oils company that produces therapeutic-grade, unfractionated oils with full sourcing and processing transparency.

Essential oils of this quality are potent plant medicine at their core enabling you to reclaim power as your family's alchemist and healer!

Their uses are broad-ranging with mounting scientific evidence that they can provide support for any day to day issue including support with sleep, digestion, osteo-skeletal system, pain relief, nervous system regulation, emotions, detoxification, every day incidents (cuts, bites, stings, burns), mental clarity, brain health, headaches, mould, skin health, hormones, immunity, raising our vibrational frequency, and replacing synthetic perfumes and artificially-scented products.

ESSENTIAL OILS ARE POTENT PLANT MEDICINE AT THEIR CORE

To be able to reach for an oil at any hour of the day or night to support your family is nothing short of empowering and game-changing. As the saying goes, whatever issue arises “there’s an oil for that!”.

3. YOUNG LIVING AS A ONE-STOP ONLINE SHOP

Conventional personal care products and cleaning products contain a slew of toxic ingredients that are damaging to our body and the planet. Children are the most impacted as their systems are smaller and their skin is more permeable. These synthetic chemicals found in everyday products such as shampoo, conditioners, toothpaste, household cleaners and laundry liquids are endocrine disruptors, carcinogens, allergens, and/or neurotoxins.

Young Living makes the world’s most comprehensive range of oil-infused personal care products (including make-up and sunscreen), cleaning products, TGA-approved supplements and an entire range of products for babies, kids, men, and pets. Made with all-natural, plant-derived, eco-friendly ingredients, you will have total peace of mind in creating a toxin-free home environment for your family with the added convenience of being able to order them online and have them delivered to your door. Streamlining the purchasing to a one-stop online shop provides simplicity, ease, and avoids the need to shop from multiple places and websites. Young Living offers the ability to healthy swap to all-natural, powerfully effective, and cost-effective alternatives at your pace.

4. HOW TO PURCHASE

To purchase Young Living products an existing member must connect you to set up your account online. Please contact the person listed at the bottom of the back page of this brochure. They will connect you with Young Living and create a wholesale account to enable you to purchase their products at 24% off the retail price. There is an option of joining a free monthly loyalty program enabling you to reap free products.

5. SUPPORTING YOU ALL THE WAY

As a member in our Star Anise Essentials community you will have access to our team’s extensive online resources, personalised support and community events. We’re here to guide you in making empowering changes for your health and the planet’s health.
