Sock and Underwear Drive

Join us in collecting new white socks and underwear for women and men who are homeless or at risk of being homeless.

New socks can reduce the risk of skin infections, prevent frostbite, and foster good hygiene. Clean undergarments restore dignity and improve basic health. A contribution of these basics is a powerful way to show kindness to someone going through the most difficult time in their life.

Every item makes a BIG difference in someone’s life!

If you are interested in organizing a drive or making a personal contribution, please contact Christina Wiseman at cwiseman@duffyhealthcenter.org, or call at (508) 771-7517 ext. 169
