OLSAT® Level A Answer Key

Question Number	Correct Answer	Reason
1.	1st picture	Headphones do not have a screen. Therefore headphones do not belong to the group of objects that have screens.
2.	4th picture	A sun always gives off light and you cannot turn it off. A sun still gives off light even if you do not see the sun in the sky. All the other objects can be turned off by humans or technology.
3.	4th picture	The first three pictures are parts of the body. The fourth picture, a t-shirt, is clothing.
4.	4th picture	The basket cannot hold water as it has small holes in it.
5.	3rd picture	All the other pictures except for the third picture show a triangle inside a square. The third picture shows a square inside a triangle.
6.	2nd picture	The bee in the second picture only has one black stripe on the back part of its body. The other bees have three black stripes.
7.	1st picture	The giraffe does not live in the ocean. All the other creatures live in the ocean.
8.	2nd picture	If Mary has 2 balls, and John has one more ball than Mary, then John has three balls ($2+1=3$). Thus the second picture, which shows three balls, is correct.
9.	4th picture	The first three pictures show shapes that are flat. The fourth picture shows a cube.
10.	4th picture	The triangle shape is the only shape among the pictures with three sides.
11.	4th picture	The desert is the place that has the least rainfall. All the other pictures show landscapes with water.
12.	2nd picture	The kite needs wind to fly well. A balloon can float/fly without wind. A cloud does not 'fly'.
