Digital Media Design Internship

Earthrise Space Foundation, Inc. (ESF) is a 501(c)3 non-profit research lab dedicated to developing space technology in collaboration with industry and academic institutions. Our goal is to provide students with hands-on experience in the areas of simulation, Science, Technology, Engineering, and Mathematics (STEM). ESF is currently pursuing the Google Lunar X PRIZE and has an Innovative Lunar Demonstrations Data (ILDD) Contract from NASA.

A majority of the requirements for our mission and the ILDD Contract require simulations for terrain mapping, mechanical analysis, orbital mechanics, data acquisition and data generation. MATLAB, Simulink, NI LabVIEW, Satellite Tool Kit/AGI, SolidWorks, CATIA, are a few of the software packages that ESF utilizes for simulation purposes.

ESF Facility Location:

3251 Progress Drive
Suite D, Room 205
Orlando, FL 32826

Job Description:

This digital media design position is an all-encompassing role for the art related projects at the Earthrise Space Foundation.

Responsibilities:

- Overall role is to contribute to artistic design projects within ESF
