### **Moderators:**

Judge Ronald Sargis  
Jack Vetter

# Ethics In The Electronic Age – It's .....

TEAM TWO: ANTHONY M. KENNEDY AMERICAN INN OF COURT  
OCTOBER 21, 2014

## ACT ONE (MEGA DATA, META DATA)

---

Shades O'Grey LLP (Hooters' defense counsel) and I. Wanda Wynn (plaintiff's counsel) get into a discovery battle. Wanda Wynn requests thousands of documents to support its gender discrimination case against Bamby B. Utiful's employer, Hooters. Among other things, Bamby wants employee handbooks – and all the metadata – and all complaints related to the dress code from every Hooters restaurant.

## ACT TWO (OUTSOURCING)

---

Realizing they need help reviewing tens of thousands of documents before Hooters can produce them to Plaintiff Bamby B. Utiful, the Shades O'Grey firm outsources its discovery work to Arendelle lawyers at Frozen Litigation Services.

## ACT THREE (BOTH SIDES CAN'T LOSE, WE NEED TO SETTLE!)

---

Digital security proves to be 50 shades of grey, and a double-edged sword. Both sides lose.
