

Production Cutting Machines

COLLINS E-Z CUTTER®

The fastest 100 pound machine you can buy!

- Fast, high-volume, production cutter makes quick work of 1/4" - 4" pipe and 5/8" - 4-1/2" tubing
- Built to withstand everyday knocks and abuses yet light enough to set up anywhere
- Universal AC/DC motor provides a full 1/2 HP for all-day production needs
- Gear-driven rollers turn the work for true perpendicular cutting
- Ball-bearing assembled cutter wheel revolves freely for even wear
- High-speed tool-steel cutter wheels assure thousands of clean cuts with no external burr – so clean that no further finishing is needed before applying fittings
- Foot switch provides operator safety while freeing both hands for high-volume production demands.

Technical Data

Range	Pipe	1/4" - 4" I.D.
	Tubing	5/8" - 4-1/2" O.D.
Dimensions	19" x 10" x 19" (L x W x H)	
Drive Type	Gear-driven rollers	
Cutter Wheel	Heat-treated, high-speed tool steel	
Motor	1/2 HP Universal AC/DC, 50-60 Hz Optional 230V motor	
Weight	Model A	121 lbs.
	Model B	125 lbs.
	Model C	125 lbs.

E-Z Cutter®

All models include a heavy-duty footswitch and one pipe cutter wheel.

Description	△ lb	No.
E-Z Cutter® Model A, 115V	121	00032
E-Z Cutter® Model A, 230V	121	00533
E-Z Cutter® Model B, 115V	125	03120
E-Z Cutter® Model B, 230V	125	03119
B versions include reamer, wire de-burring brush		
E-Z Cutter® Model C, 115V	125	00033
E-Z Cutter® Model C, 230V	125	00534
C versions include two heavy-duty roller and two stationary supports		
Steel pipe cutter wheel	1	00034
For galvanized, black, and stainless steel		
Copper tube cutter wheel	1	00035
Soil pipe cutter wheel	1	00535
Plastic pipe cutter wheel	1	00536
Stationary support	3	00036
E-Z Cutter® stand	40	00037
Roller bearing support	3	00069
Pipe support fitting	1	00071
Foot switch, 115V	8	00079
Foot switch, 230V	8	02350

Model C
(shown with optional stand)

Turn your E-Z Cutter into a complete production system with these timesaving accessories:

FOR BENCH MOUNTING:

- Stationary Support #00036 mounts your 1-1/4" support pipe to the workbench surface
- Roller Bearing Support #00069 slides onto the support pipe and provides easy travel and rotation of work.

FOR FLOOR MOUNTING:

E-Z Cutter Stand #00037 bolts to the floor for stationary support

- Pipe Support fitting #00071 (with 1" pipe legs) mounts onto 1-1/4" pipe also using the Roller Bearing Support on support pipe
- Pipe Jack with Ball-Bearing Transport Head #00101 replaces system of support pipe and fittings, providing a handy alternative for supporting the work.
