Create a Bird Bath for Your Feathered Friends!

Birds need water all summer long. Have fun watching them drink, bathe and swim in a bird bath of your own. Bird baths can be as simple as you’d like. Stack a few clay pots, flat stones, or even a log and then place a shallow pan to collect water on the top. Add a stone for a place to perch or balance. You can even hang them from a tree! Use tea cups and plates for extra fancy!
