Contigo, Diana Solís is a convening of photographs, artists, and communities. Rather than being structured as a “solo show,” Contigo: Diana Solís commemorates the social- and community-based dimensions of Solís’s photographic practice by bringing artists into creative dialogue. Born in Monterrey, Nuevo León, Mexico in 1956, Diana Solís (they/them) has lived and worked in Chicago for over sixty years. This exhibition features Solís’s newly printed photographs, originating from film shot in the 1970s–90s, as well as their recently created digital photographs, made since their return to photography in 2020. These past and present photographs attest to Solís’s enduring commitment to documenting the people, places, and activities that form Latinx, LGBTQIA+, immigrant, and feminist communities in Pilsen and across Chicago. The recirculation of Solís’s archival photographs and revitalization of her practice today are intertwined, sustained by care, reciprocity, and labor. As the photographs in this exhibition underscore, portraiture is a strong source of this continuity. Whether their subject is a friend, acquaintance, or someone they just met, Solís’s honorific portraits exemplify their awareness of how photography, as a fundamentally social medium, asks us to behold each other.
The twenty artists taking part in this exhibition reflect how Solís, as an educator, activist, and photographer, has long collaborated intergenerationally and continues to forge ever-expanding networks across generations in and beyond Chicago. The exhibition invites visitors to locate resonances among works by Solís and participating artists, while recognizing the specificities of their distinct social commitments, personal and collective histories, and sensibilities. In creative correspondence with Solís, these works act as points of intersection that help us understand art making as a practice done together, for our communities, and in response to others.
