

OpenTouch Office Cloud for SMB

Feature-Rich Hosted Voice for Small Business

OpenTouch Office Cloud is the perfect hosted voice solution for businesses with up to 50 employees.

- Choose the features and options that best suit your unique business requirements.
- Reduce cash spent on communications with a solution that costs less than a traditional premises-based PBX.
- Take advantage of hundreds of standard communications features for increased productivity.
- Bring mobility to the heart of communications using PC, mobile phone.

- Make visual communications part of everyday business with one-touch video calls.
- Improve productivity with a solution that grows as the business grows.
- Maximize communications uptime with our managed solution in a secure, carrier-class data center.

Stay Connected In or Out of the Office

Enable advanced unified communication services to Apple® iPhone™ and Google Android® mobile devices.

- Have a single number to reach you at any of your devices.
- Access the corporate directory.
- Access telephony features.
- Manage call routing while away from the office.

Flexible Dialing Plans

Starting with 500 minutes of local and long distance dialing per user, OpenTouch Office Cloud for SMB monthly plans also include

discounted international calling, 911 service and choice of area code.

Enhance Customer Satisfaction From the Very First Contact

OpenTouch Office Cloud for SMB provides end-to-end call management, with a professional greeting and efficient call routing to the relevant department, call overflow capabilities and out-of-office solutions that forward calls to voice mail and allow you to check voice mail remotely while maintaining privacy.

- Voice mail access from outside the office.
- Every employee can have their own personal greeting.
- Callers to the main number are greeted by the automated attendant and hear a company-specific greeting.
- Smart call routing makes it easy for callers to be directed to the best person or department based on dialed number or menu selection.
