## INTRODUCING EARLY BIRD REGISTRATION !

In response to member requests, the IBUG conference committee has introduced early bird registration for the 2016 Fall IBUG Conference. Both early bird registration options include attendance to all 3 days of the conference, ALL of the workshops, and a guest pass to the Evening Social.

**EARLY BIRD FULL CONFERENCE REGISTRATION** - \$850 (approx. \$300 discount)  
Includes hotel accommodations for 3 nights.

**EARLY BIRD REGULAR CONFERENCE REGISTRATION** - \$500 (approx. \$190 discount)  
No hotel accommodations are included.

Although the official agenda has not been posted; early bird registration is **OPEN NOW!** The early bird registration will close 3 days prior to the opening of general registration to allow early bird registrants the first opportunity to select desired workshops.

The 2016 Fall IBUG Conference agenda will be very similar to last spring's conference agenda. Additionally, a 3-day **"Introduction to MicroStation & GEOPAK"** workshop for students and new (or old) engineers to learn the basics. In an effort to keep you up-to-date, IBUG will once again be hosting a session on the status of the **IDOT CADD Standards** as well as "Open Discussion Sessions" for attendees to offer input.

IBUG has made arrangements with The Hilton/Oak Brook Hills Resort & Conference Center to offer conference rates 3-days before and after the conference. Bring your family to work, golf, and play before the summer is over! We hope to see you there!

**SAVE THE DATE!!**

**2016 Fall IBUG Conference will be August 23rd–25th, in Oak Brook.**
