

Grace Groups Questions

1 Corinthians 12:12-31

1. Why are we inclined to value some gifts over others in the church? How can we change this perspective?

We can be convinced by others than some gifts are more important or follow after movements that do the same. We correct it by being in the word together and seeing the variety necessary for the health of the church.

2. What is the source and hope of unity in the church?

The Spirit, bringing us gifts, power and reminder of our place in Christ.

3. How can we do ministry different as a church (especially functioning with all members playing a part in unity)?

More opportunity for varied gifts; more outward engagement bringing the gospel to others.

4. How can we help each other discern our gifts?

Getting to know each other and asking what our passions are and waiting on the Lord for direction.
