Footnotes:
1. All percentages on this map represent the percent of persons that entered or exited from each type of program: ES, TH, RRH, and PSH (e.g., Out of the 58 entries in ES, 39 people, or 67%, came from staying with friends or family).
2. In general, data that accounts for less than 10% of the total number of entries or exits per program is not graphically represented on this map, unless it was intentionally added to show significance (e.g., Out of the 58 people that entered the homeless system coming from a place not meant for human habitation, 16 went to ES, 23 went to TH, 1 went to RRH, and 17 went to PSH. The low number of RRH entries (1) is not graphically represented but it is included in the total calculations).
3. Category Other II. Other Destinations (48) combines the following destination types in Data Element 3.12: Staying with friends or family (temporary tenure), Hotel or motel, Deceased, or Other.
