• 28 exits where data was not collected or no exit interview
• 14 exits where client didn’t know or refused
II. Other Destinations (38)
III. Place Not Meant for Human Habitation

FOOTNOTES:
1 The systems map does not graphically show data from Nome’s RRH and Homelessness Prevention (HP) programs due to the low number of people entering those programs within the date range of 10/1/15-9/30/16. There were 3 entries from Nome’s RRH program within this timeframe and 3 entries and exits from the HP program.
2 All percentages on this map represent the percent of persons that entered or exited from Nome’s ES program (e.g., Out of the 184 entries in ES, 86 people, or 47%, came from staying with friends or family).
3 In general, data that accounts for less than 10% of the total number of ES entries or ES exits are not graphically represented on this map, unless it was intentionally added to show significance (e.g., People in the ES program came from other locations not listed on the map, such as 2 people from ES, 2 people from TH, and 1 person from permanent housing. The low number of ES entries from these locations not graphically represented but they are included in the total calculations.)
4 Category Other II. Other Destinations (38) combines the following destination types in Data Element 3.12: Staying with friends or family (temporary tenure), Hotel or motel, Deceased, or Other.
