*Lebanon is among the oldest sites of wine production in the world.  
Phoenicians were instrumental in spreading wine and viticulture throughout the Mediterranean in ancient times.  
Despite the many conflicts of the region, the country has an annual production of about 600,000 cases of wine.  
Recently, the sector has been witnessing an unprecedented growth.  
The number of wineries went from 5 in 1998 to over 30 nowadays.*
