

Video Transcript

[Video montage of children working with co-founder Whitney Yip, and co-founder Deanne Carson presenting in front of a slide show]

One in five children will be sexually abused before they turn eighteen.

That's about five children in every classroom in Australia.

[Video footage of children participating in Body Safety Superstars' Kindergarten Program. Children laughing, playing and contributing to conversations]

Childhood sexual abuse used to be clouded in secrecy but the Royal Commission has blown the conversation wide open and survivors are coming forward and telling us how adults could have helped them when they were small.

At Body Safety Australia we have listened. We've done the research on respectful relationships and violence prevention education. And we are now able to offer you a fun engaging and evidence-based whole community solution.

We can come to your kindergarten or school, run parent workshops or professional learning for all people working and volunteering with children.

[Video footage of a child with co-founder Deanne Carson displaying their 5 Safe Adults Finger Puppets designed and created by Body Safety Australia]

Talk to us about creating a child safe environment for your unique community.
