

## GHD

### Brief:

To supply a vintage 31ft Airstream trailer, create a large opening hydraulic hatch entrance and build in a welcome desk, 4 styling stations and hair wash station. Provide a huge amount of power so the unit can operate in any location as a fully functioning hair salon.

### Response:

The Airstream has now worked across many products from the GHD range, highly adaptable and "scaleable" for small or large events. Every year the Airstream is reinvented for their latest offering.

### Result:

A highly valued, versatile trailer that is always in fashion due to its classic design.
