

## ***Glass Gathering Meeting Minutes***

2/13/16

9:00 – 11:00 am

Generously hosted by Harmony Stained Glass, Pasadena, Texas

Events of this meeting were a general business meeting and a presentation on 3D soldering by Joyce Sullivan. 19 members and 2 guests attended this meeting.

### **General Meeting**

- Several members paid annual dues and these cover the entry fee for our May art show.
- Treasurer's report by Joanne Crull shows a balance of \$2,150.24 this month.
- Chris Alexander updated us on our website woes, our site is now back online permanently.
- Art Show News: Please get your entries ready! We need locations to post flyers and lots of help publicizing the show. Art show expenses will be tracked separately from rest of GG's budget this year. For the first time money will be given out for the top 3 prizes.
- Welcome to newcomers
- Attendees were treated to an extensive Show and Tell session with lots of great glass.
- 4 door prizes were furnished by Patti Hinson and awarded via a drawing.

### **3D Soldering Presentation**

Joyce Sullivan gave an extensive demonstration showing several different methods of soldering stained glass together to make 3D objects. This category doesn't get enough entries in the Art Show, so this is great information for our membership.

### **News and Updates**

- No officer's meeting this month.
- This year's calendar includes a welding demo, field trip to MFAH, field trip to Webster Presbyterian Church, history of glass, another mount making demonstration (this was very popular last year), and our annual Christmas Party.

Until next month, happy glass making!
