8.09.010 Findings and Purpose

The City Council finds and determines that:

- (a) The use of single-use carryout bags by consumers at retail establishments is detrimental to the environment, public health and welfare.
- (b) The manufacture and distribution of single-use carryout bags requires utilization of natural resources and results in the generation of greenhouse gas emissions.
- (c) Single-use carryout bags contribute to environmental problems, including litter in stormdrains, creeks, the bay and the ocean.
- (d) Single-use carryout bags provided by retail establishments impose unseen costs on consumers, local governments, the state and taxpayers and constitute a public nuisance. This City Council does, accordingly, find and declare that it should restrict the use of single use carry-out bags.

8.09.020 Definitions

“Customer” means any person obtaining goods from a retail establishment.

“Garment bag” means a travel bag made of pliable, durable material, with or without a handle, designed to hang straight or fold double and used to carry suits, dresses, coats, or the like without crushing or wrinkling the same.

“Nonprofit charitable reuser” means a charitable organization, as defined in Section 501 (c)(3) of the Internal Revenue code of 1986, or a distinct operating unit or division of the charitable organization, that reuses and recycles donated goods or materials and receives more than fifty percent of its revenues from the handling and sale of those donated goods or materials.

“Person” means any natural person, firm, corporation, partnership, or other organization or group however organized.

“Prepared food” means foods or beverages which are prepared on the premises by cooking, chopping, slicing, mixing, freezing, or squeezing, and which require no further preparation to be consumed. “Prepared food” does not include any raw, uncooked meat product or fruits or vegetables which are chopped, squeezed or mixed.

“Public eating establishment” means a restaurant, take-out food establishment, or any other business that receives ninety percent or more of its revenue from the sale of prepared food to be eaten on or off its premises.

“Recycled paper bag” means a paper bag provided at the check stand, cash register, point of sale or other point of departure for the purpose of transporting food or merchandise out of the establishment that contains no old growth fiber and a minimum of forty percent post-consumer recycled content; is one hundred percent recyclable; and has printed in a highly visible manner on the outside of the bag the words “Reusable” and “Recyclable,” that name and location of the manufacturer, and the percentage of post-consumer recycled content.

“Retail establishment” means any commercial establishment that sells perishable or non-perishable goods including, but not limited to, clothing, food, and personal items directly to the customer; and is located within or doing business within the geographical limits of the City of Foster City. “Retail establishment” does not include public eating establishments or nonprofit charity reusers.

“Reusable bag” means either a bag made of cloth or other machine washable fabric that has handles, or a durable plastic bag with handles that is at least 2.25 mil thick and is specifically designed and manufactured for multiple reuse. A garment bag may meet the above criteria regardless of whether it has handles or not.

“Single-use carry-out bag” means a bag other than a reusable bag provided at the check stand, cash register, point of sale or other point of departure, including department within a store, for the purpose of transporting food or merchandise out of the establishment. “Single-use carry-out bags” do not include bags without handles provided to the customer: (1) to transport prepared food, produce, bulk food, or meat from a department within a store to the point of sale; (2) to segregate food or merchandise that could damage or contaminate other food or merchandise when placed together in a reusable bag or recycled paper bag.
