Name_____ Age _____

Occupation _____

How would you like to be addressed? _____

Date _____ Referred by (if any): _____ Primary Physician _____

Antihistamine medications (see attached list) interfere with allergy skin testing. Stop antihistamines 7 days before your appointment. You do not need to stop other medications not listed on the attached sheet. Continue asthma inhalers. If you are presenting for evaluation of hives, you do not need to stop antihistamines. Complete this questionnaire before you see the doctor, as this information will help your allergist evaluate and treat your medical condition. If you are the parent of a young patient, answer for your child as best as you can. Thank you.

I. Describe in your own words the reason for your visit: _____

_____

Nasal Symptoms (proceed to next section if this is not applicable to you)

1. Do you have nasal symptoms? Yes No If yes, circle all that apply:
