## Notes

This register shows information on the Forest Management Enterprises (FMEs) that have been verified legal under the CertiSource Legality Assessment System.

To ensure you have the most up-to-date register please visit [www.certi-source.org](http://www.certi-source.org) or contact Paul Wilson at [info@certi-source.org](mailto:info@certi-source.org)

### 1. Certificate no.

CertiSource requires that FMEs demonstrate compliance to the relevant country specific standard.

Assessment findings are published in an assessment report issued with a unique reference number. This code is also stated on the FME certificate.

Note that the document code format is in the process of being changed from CSDD 1234 to CS-DX-12345-ABC-FM.

Assessment findings are published in an assessment report issued with a unique reference number. This code is also stated on the FME certificate.

### 3. FME Area (ha)

A hectare (ha) is a unit of area equal to 10,000 square metres.

### 2. Status

Current status of certification or assessment of the FME. The status is colour coded:

- Green indicates that the certification is valid and acceptable.
- Yellow indicates that the certification is in the process of being extended. Certificates can be accepted.
- Red indicates that the certificate is expired, suspended or on hold. CertiSource claims for products manufactured from logs harvested whilst a certificate is expired, suspended or on hold should not be accepted. Contact CertiSource for more information.
